

GV12|SEQ00982: Phage—related protein GV10|SEQ00866: Phage minor structural protein GV20|SEQ00911: prophage ps3 protein 01, putative GV12|SEQ01052: abortive phage resistance protein GV09|SEQ00347: Phage minor tail protein

Count 0

> 2 3

2384: Phage tail length tape-measure protein

clust_1933: Lj965 prophage protein 1834: Prophage antirepressor

_1768: Phage major capsid protein

DNA primase, phage associated

Phage protein phage integrase family protein

lust_1649: Phage major tail protein Phage minor structural protein / possibly with peptidase activity Phage-associated HNH homing endonuclease / Phage intron Abortive infection bacteriophage resistance protein phage-related terminase

clust_1494: Abortive infection bacteriophage resistance protein _1541: DNA primase/helicase, phage-associated abortive infection bacteriophage resistance protein prophage pi2 protein 38 Phage antirepressor protein

Phage tail length tape_measure protein GepA protein Holin, toxin secretion/phage lysis DNA primase/helicase, phage-associated

Phage protein Phage terminase large subunit Prophage Clp protease-like protein DNA helicase, phage-associated

Phage integrase (Site-specific recombinase) FIG006036: phage encoded DNA polymerase I (EC 2.7.7.7)

clust_0935: phage-associated protein WhiB-type transcription regulator prophage ps3 protein 01, putative prophage ps3 protein 01 Phage-related protein
