

clust_1933: hypothetical protein clust_2384: Phage tail length tape-measure protein

3

_1834: Prophage antirepressor

clust_1771: Phage tail length tape-measure protein

clust_1696: DNA primase, phage associated clust_1768: Phage major capsid protein

clust_1687: phage integrase family protein

clust_1655: hypothetical protein

clust_1649: hypothetical protein _1644: hypothetical protein

clust_1642: hypothetical protein

clust_1599: hypothetical protein

_1564: Phage minor structural protein / possibly with peptidase activity

clust_1541: DNA primase/helicase, phage-associated clust_1550: hypothetical protein

clust_1496: Phage antirepressor protein

clust_1477: prophage pi2 protein 38

clust_1446: abortive infection bacteriophage resistance protein

_1428: Holin, toxin secretion/phage lysis

clust_1424: DNA primase/helicase, phage-associated

clust_1348: hypothetical protein

clust_1334: Phage tail length tape-measure protein

clust_1292: hypothetical protein

clust_1279: FIG022160: hypothetical toxin

Phage major tail protein

clust_1240: Phage protein

clust_1239: Prophage Clp protease-like protein

clust_1238: Phage terminase large subunit

_1206: DNA helicase, phage-associated

clust_1204: Phage protein

clust_1199: Phage portal protein

clust_1168: Phage integrase (Site-specific recombinase) clust_1166: FIG006036: phage encoded DNA polymerase I (EC 2.7.7.7)

Phage major capsid protein

clust_1060: prophage ps3 protein 01 _1063: Phage-related protein

clust_1057: hypothetical protein

_1004: prophage ps3 protein 01, putative

clust_0620: WhiB-type transcription regulator

clust_0009: Site-specific recombinase
